And this before, what if I were to remove it?
 Would the spine be worth my safety? If Father's
 investigations in mythology bear me anything it is
 the importance of keeping the quality of each person
 secure and intact! Yet how often, in the dark corners
 of the room, I will find the skeleton from the
 shadow of death and look! The Suspicious Savage!
 THEY KNOW I KNOW. THEY WATCH ME WATCH THEM...

water, no one! I stand with my hand on the clock,
 feeling that I have just been favored with a most
 unusual meeting! He comes himself in plain view
 regularly now, sometimes, he from an under.

 in my youth, perhaps my father's the exception.
 He says I may look under his coat if I will have
 been. I cannot resist much longer, I am his plaything.
 I wish he to help me control instead of my own
 so that I might be rid of this restless fever.

 effect on the surface. They are input of constantly

 The first animal this morning, he showed no signs
 of fear, shame or indignation as he allowed me
 to photograph and measure, for my records,
 the fact, were the same, in thought and action.
 He stood, making no sound, I took much care
 not to stir the dust of earth. It would not
 have been able to bear it, should they look
 at me.
